The Centre hosts an annual series of Continuing Legal Education Conferences and expert Symposia on cyberspace issues.

CLE conferences cover a broad range of topics. Titles of major conferences in the past include ‘E-commerce and Content’, ‘eCrime and eSecurity’ and the ‘The New Privacy Landscape’.

The basic idea of the symposia is to provide a forum for free-ranging discussion between experts about the issues involved. The symposia thus avoid the usual conference format and allow experts a unique opportunity to exchange views.

Full details are available from the Centre’s web site.

Two-day CLE courses and assessment can qualify as a 4 unit LLM subject.

Many of the Centre’s Research Associates are involved in teaching a wide range of LLB, LLM and General Education subjects on aspects of cyberspace law.

The diverse expertise of the Research Associates enables UNSW Law Faculty to arrange high quality supervision for postgraduate research students in cyberspace law.

The Centre is a major contributor to valuable Internet resources on cyberspace law and policy:

- Cyberspace Law Resources database - http://www.austlii.edu.au/au/other/CyberLRes/. This is a collection of publications on cyberspace law, particularly those by Centre researchers, those used for teaching, and papers from the Centre’s Symposia and Conferences.

- The Cyberspace Law Index / Search provides access to global cyberspace law resources - <http://www.austlii.edu.au/links/284.html>. It is part of AustLII’s World Law facility

Subjects taught at UNSW by Centre Associates have their own web pages, such as:

- The Cyberspace Law subject pages - <http://www2.austlii.edu.au/itlaw/>

AustLII is the host of the Centre’s web resources.

Baker & McKenzie is the largest law firm in the world, with 62 offices in 35 countries. For further information, visit the firm’s website <http://www.bakernet.com>. UNSW Law Faculty thanks Baker & McKenzie for its generous support of the Centre.

A Centre for the Public Interest in Networked Transactions

<http://BakerCyberlawCentre.org>
or <http://www.austlii.edu.au/CyberLPC/>
The Baker & McKenzie Cyberspace Law and Policy Centre facilitates research, education and public interest advocacy on legal and policy issues concerning transactions in cyberspace. These issues span over a broad range of topics, including:

- e-commerce;
- provision of government services by Internet;
- use of encryption and Public Key Infrastructure (PKI);
- Internet governance;
- Digital Rights Management Systems (DRMS);
- automated decision-making in public administration;
- privacy and freedom of information in digital records.

The distinctive aim of the Centre is to assess these issues from a public interest perspective. The focus is not so much on the technology involved but rather on the regulation of the social space created by computing networks – ie ‘cyberspace’. Much of the Centre’s work concerns Australian law and policy. However, it has a substantial international focus as well. The development of cyberspace regulation in Asia is particularly important in this regard, as the infrastructure for cyberspace is rapidly growing there.

The Centre was established in 2000 with Professor Graham Greenleaf as its founding Director. Funding for the Centre is generously provided by the law firm of Baker & McKenzie.

**THE CENTRE’S ASSOCIATES**

The Centre is based around the collaboration of Research Associates both from within and outside UNSW.

- **Russell Allen**, AustLII and Faculty of Law, UNSW; specialising in computerisation of law, intellectual property.
- **Dr Kathy Bowrey**, Faculty of Law, UNSW; specialising in intellectual property, cyberspace law, cultural impact of new technologies, erosion of the public domain.
- **Dr Lee Bygrave (Co-Director)**, Senior Research Fellow, Norwegian Research Center for Computers and Law, and Faculty of Law, UNSW; specialising in privacy law, information security, private international law, DRMS and ADR.
- **Emeritus Professor Michael Chesterman**, Faculty of Law, UNSW; specialising in media law, freedom of speech and contempt of court.
- **Philip Chung**, AustLII and Faculty of Law, UTS; specialising in security, privacy and accessibility of Internet resources.
- **Dr Roger Clarke**, Xamax Consultancy; specialising in electronic commerce, information infrastructure policy and privacy.
- **Chris Connolly (Co-Director)**, Financial Services Consumer Policy Centre and Faculty of Law, UNSW; specialising in consumer and privacy aspects of electronic financial transactions; Co-editor of the *Internet Law Bulletin*.
- **Tim Dixon**, Associate, Baker and McKenzie, Sydney; specialising in privacy and PKI; Editor of *CCH Private Sector Privacy Handbook*.
- **Bruce Gordon**, Faculty of Commerce and Economics, UNSW; specialising in consumer and commercial aspects of IT law.
- **Professor Graham Greenleaf (Co-Director)**, AustLII and Faculty of Law, UNSW; specialising in cyberspace law, privacy, intellectual property, PKI; General Editor, *Privacy Law & Policy Reporter*; foundation Director of the Centre.
- **Associate Professor Rodger Jamieson**, Faculty of Commerce and Economics, UNSW; specialising in information systems auditing, computer security and knowledge-based systems.
- **Professor Jill McKeough**, Faculty of Law, UNSW; specializing in intellectual property.
- **Associate Professor Ron van der Meyden**, Faculty of Engineering, UNSW; specialising in legal applications of encryption and logic programming, including DRMS, PKI and electronic contract enforcement.
- **Carolyn Penfold**, Faculty of Law, UNSW; specialising in the operation and effects of Internet censorship laws, computerised legal research.
- **Holly Raiche**, Australian Communications Industry Forum and Faculty of Law, UNSW; specialising in telecommunications law, privacy and IT law.
- **Alex Steel**, Faculty of Law, UNSW; specialising in corporate fraud and cybercrime.
- **Nigel Waters**, consultant on fair information practices, (formerly Deputy Commonwealth Privacy Commissioner); Associate Editor, *Privacy Law & Policy Reporter*.

More extensive details of the Research Associates are on the Centre’s web pages.
